It is the purpose of the Santa Fe to build new line northwesterly from Roswel o some point where connections wil o Fe's California line. This will result in a reduction of over 300 miles in the stance between Galveston and Pacific must points over Santa Fo rails, as compared with the distance at present in Newton, Kas.

The prime object, therefore, in the

extension of the line is to strongthen the position of the Santa Fe on trans-continental traffic, the intention of the ompany being to handle a larger pro-ortion of that teaffie via Galveston and the part sea route. In addition to that the Santa Fe will get right into the heart of a great stock-growing country, and will also be in position to take ad-vantage of the traffic which is being desloped into the Peces valley country y reason of the great strides made while the Santa be is pushing out into cast Texas to avail itself of the big traffic in itmiser and the big promise it lumber with the looky find of oil at its southern terminus, it is also pushing westwardly in Texas and with the great arms reaching out from the main stem, two branches which have hereto-
